## FRONT-END DEVELOPER

Results-driven Front-End Developer with 6+ years of experience building high-performance, mobile-optimized web applications. Holds a Bachelor's degree in Software engineering and expertise in React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS. Skilled in both front-end (React, Angular) and back-end (Node.js, Django, Ruby on Rails) development, ensuring seamless user experiences.

- Leveraged Unit Test methodologies to ensure robust functionality across all stages of software development.
- Proficiency in HTML, CSS, and JavaScript for responsive web development.
- Experience with CMS customization (Sitefinity certification preferred).
- Hands-on experience with BitBucket, GitHub, Jira, and Confluence.
- Compliance with AODA & WCAG accessibility standards.
- Proficient in Automated Testing, TypeScript, JavaScript (ES6), React.js, React Native, Next.js, HTML5, CSS3, and Tailwind CSS for building responsive and visually appealing user interfaces
- Experienced in Ruby on Rails for rapid development of robust web applications, and skilled in working with databases including MySQL and PostgreSQL.
- Having expertise in Node.js and Python for building scalable server-side applications, and developing RESTful APIs to facilitate seamless communication between client and server.

## Technical Skills

---

### Technical Knowledge

- **Front-end:** Typescript, JavaScript, ES6, React.js, React Native, Next.js, Redux, HTML, CSS3, Tailwind and Bootstrap
- **Back-end:** Ruby on Rails, Node.js, Python Flask, RESTful APIs, S3, Firebase, NextAuth, OAuth, Database Query
- **Databases:** MySQL, NoSQL, PostgreSQL, SQLite
- **Development Tools:** VS Code, Git, GitHub, XCode, Linux Operating Systems.
- **Agile & Scrum:** Remote Project Delivery, Team Management, Analysis Project Scheduling.

## Projects

---

- **SUPPLEMENT REGISTER:** Simplify management of supplement stores with a Next.js 13, Prisma, and MySQL-powered application. Efficiently handle inventory, invoices, and daily sales tracking. Utilize AWS S3 bucket for image uploads and RDS PSQL for database management.
- **Vejetree:** successfully encapsulates the brand's essence, offering an enticing and informative experience for visitors. It showcases the product line effectively and ensures a user-friendly journey. This project demonstrates my proficiency in React.js, Redux, PSQL, Bootstrap, MUI, and Framer.
- **Recipe:** Ruby On Rails app user-friendly application, leveraging the power of Bootstrap, gems, Devise, and PSQL.
- **Crypto Blog:** A Next.js web app with Prisma adapter for real-time cryptocurrency data. Engage in community-driven discussions, add predictions, and vote on comments. NextAuth ensures secure authentication. Stay informed and join the crypto community! styled using Tailwind CSS with RDS PSQL deployed on AWS Amplify

## Professional Experience

---

- Collaborate with team members to implement front-end features, ensuring a seamless user experience.
- Translated design mockups into pixel-perfect, AODA & WCAG-compliant web pages
- Develop responsive web applications using Next.js and React.js to support the organization's digital initiatives.
- Deployed and maintained applications on AWS, Vercel, and Azure.
- Troubleshoot, optimize, and enhance website performance to improve functionality and efficiency.
- Worked within agile sprints using BitBucket, GitHub, Jira, and Confluence for version control and collaboration.

- Developed and maintained responsive web applications using JavaScript, React.js, Node.js, HTML5, and CSS.
- Monitored system performance, implementing measures for optimal functionality and efficiency.
- Utilized AWS services for hosting, storage, and database management to ensure performance and scalability.
- Troubleshot technical issues, provided code reviews to other developers, and managed projects with Git.
- Collaborated with cross-functional teams to design and implement new features, and conducted code reviews.

- Provided prompt and secure IT support, minimizing downtime, and contributing to organizational growth.
- Monitored system performance, implementing measures for optimal functionality and efficiency.
- Led initiatives to boost departmental efficiency by 15%, introducing new processes and technologies.
- Reduced system downtime by 30%, achieving a 99.2% success rate in resolving Level 2 support tickets.
- Assisted with the implementation of new network technologies.
- Troubleshoot and resolve network issues. Delivered technical support to Users.

Volunteer Experience

Mentor - Microverse	January 2023 – March 2023
<ul style="list-style-type: none"><li>• Proposed improvements to code organization to improve code quality and performance by 20%.</li><li>• Handed over advice and tips to 10+ students on how to maintain motivation and longevity.</li><li>• Mentored 3 Junior web developers, providing technical support through code reviews.</li></ul>	

Education

<ul style="list-style-type: none"><li>• <b>Software Engineering</b> – Baghdad COES University</li></ul> <i>(Bachelor’s 4 years Degree evaluated by WES Canada)</i>	Baghdad, Iraq
